

# DOME

## Department of Medical Education

### TEACHING AND FACULTY

**DOME is a home for teaching faculty, especially those who teach at multiple educational levels and who bridge departmental and programmatic boundaries**

- ❖ Direct and teach interdisciplinary MD courses: 1st year integrated curriculum; Pathophysiology; FOM 1, 2, 3;
- ❖ Expand interdisciplinary education in the MD program and in collaboration with other MSM programs
- ❖ Provide expertise in relevant fields: pedagogy, evaluation, stats, IT, and content experts in medicine or basic sciences
- ❖ Are/aspire to be master teachers with the passion and skills to support academically diverse students

### SCHOLARSHIP AND INNOVATION

- ❖ Publish/disseminate our innovations and successes
- ❖ Lead by example and collaboration to be at the forefront of modern approaches to teaching methods, evaluation, and creative use of technology
- ❖ Create an agenda and timeline to publish and disseminate our academic programs and achievements
- ❖ Set up departmental mechanisms: writing group, journal club, mentoring to foster scholarship of junior faculty
- ❖ Lead interprofessional education initiatives and new program development

### SERVICE AND COLLABORATION

- ❖ Cooperate with internal partners to seek external grant funding, publish, create innovative programs and curricula, faculty development, increase campus-wide engagement and awareness of educational activities
- ❖ Increase awareness of our programs and successes through external relationships
- ❖ Promote MSM's mission through community service
- ❖ Develop educational skills of students, residents, faculty, and staff through teamwork with all programs

#### WHO WE ARE

The Department of Medical Education (D.O.M.E.) is the academic home for interdisciplinary faculty with various degrees and skill sets who are deeply engaged in educational activities in addition to their roles as directors of programs, administrators, and in student academic support and educational affairs. We are a fundamental contributor to the achievement of MSM's mission.

#### OVERALL GOAL

Assure that MSM reaches the highest level of excellence as we expand class size and programs-through publication and dissemination of our successes in recruitment, support, and development of faculty and programs, be a fundamental contributor to MSM's achievement of national recognition for leadership in cutting-edge learner-centered education: pedagogy, mentoring, learning communities, educational support services.
